To acquaint teachers and students with the knowledge and information that they require in this techno-savvy era to bridge the gap of this sudden change due to the pandemic.

In this era of knowledge effectiveness in dissemination of information, development of creative contents and incorporation of innovative information and communication, technologies play a higher role at all levels of the education system. There was a need to give teachers and students a platform to show their creativity in the form of e-contents.

This activity helps the teachers to encourage them to develop e-content and students to encourage them to develop and submit their e-content for assessment, which helps the teacher to understand whether the student has understood the topic.
