Brief report

The Department of Economics organized an Add-on Course titled "Basics of Competitive Exams" from August 6th to August 26th, 2022. The primary aim was to equip 100 students from B.com, BMS, and BA with essential skills and knowledge required for various competitive examinations.

Course Overview:

The course was structured to cover a wide range of topics essential for competitive exam preparation. The curriculum included an introduction to various competitive exams, understanding exam patterns, time management strategies, problem-solving skills, and practical sessions involving mock tests and practice exams.

Outcomes:

- **Enhanced Knowledge:** Participants gained a comprehensive understanding of the structure and requirements of competitive exams.
- **Improved Skills:** Students developed effective time management, problem-solving, and critical thinking skills crucial for exam success.
- **Increased Confidence:** The course instilled confidence and motivation among students aspiring to excel in competitive examinations.

Conclusion:

Vishnu Waman Thakur Charitable Trust's
Bhaskar Waman Thakur College of Science.
Yashvant Keshav Patil College of Commerce
Vidhya Dayanand Patil College of Arts.
(VIVA College)
(Affiliated to University of Mumbai)

The Add-on Course on Basics of Competitive Exams was a resounding success. It provided valuable insights and practical skills to the participants, preparing them for the challenges of competitive exams. The active engagement of students and positive feedback indicate the effectiveness of the course in achieving its objectives.

The Department of Economics expresses gratitude to all faculty members, and students for their active participation and contribution to the success of this program.

Ms. Mansi Gawand
Course Coordinator

Dr. Nilima Bhagwat
Assistant Professor and Head, Department of Economics

ASSESSMENT REPORT

2022-2023

Name/ Title of the Programme: Biomathematics and Biostatistics				
Date (DD/MM/YYYY): 10/01/2022		Total Participants / Beneficiaries (in figures) – Total : 32 Male: Female:		
Resource Person/ Chief Guest (If any or else NA):				
Sr. No.	Name of the Resource Person/ Chief Guest	Affiliation	Mobile Number	Email ID (if available)
Convener of Programme: Mrs Archana Malpathak				
Brief assessment report of programme (in 250 - 300 words)		<p>Biomathematics (Biomaths) Biomathematics, or mathematical biology, involves the development and application of mathematical models to understand biological systems and phenomena. This field uses mathematics to explain biological processes, from the molecular and cellular levels to ecosystems and population dynamics. Biomathematics is a highly interdisciplinary area, combining elements of biology, mathematics, physics, and computer science to solve complex biological problems. Examples of applications include modeling population dynamics, disease spread, neural networks, gene regulation, and ecosystem interactions.</p> <p>Biostatistics Biostatistics specifically focuses on the application of statistical methods to the collection, analysis, interpretation, and presentation of biological data. Biostatistics is essential in designing biological experiments and clinical trials, analyzing data from these studies, and making evidence-based decisions in medicine and public health. This field addresses questions about health, disease, and genetics by applying statistical principles to data, thus playing a critical role in epidemiology, public health, genomics, and various other medical and health-related research areas.</p>		
News Paper Cutting (if applicable/ or else NA)		NA		

Q1. What is the null hypothesis in a statistical test?

- A) A hypothesis that there is no effect or no difference
- B) The hypothesis that the researcher wants to prove
- C) A hypothesis about the population parameter that is assumed to be false
- D) The expected outcome of an experiment

Q2. Which measure of central tendency is most affected by outliers?

- A) Mean
- B) Median
- C) Mode
- D) Range

Q3. What is a Type I error in hypothesis testing?

- A) Rejecting a true null hypothesis
- B) Failing to reject a false null hypothesis
- C) Accepting the alternative hypothesis when it is false
- D) None of the above

Q4. The primary goal of statistical inference is to:

- A) Describe the sample with perfect accuracy
- B) Make predictions about future experiments
- C) Draw conclusions about a population based on sample data
- D) Determine the cause of observed phenomena

Q5. In the context of biostatistics, a "population" refers to:

- A) The entire group of individuals living in a country
- B) The set of all possible outcomes in an experiment
- C) The complete set of items that interest the researcher
- D) A group of similar species living in the same area

Q6. What is the primary goal of mathematical modeling in biology?

- A) To replace traditional biological experiments
- B) To predict the outcome of biological processes and phenomena
- C) To create visually appealing representations of biological systems
- D) To prove that biological hypotheses are correct without experimental evidence

Q7. In biomathematics, what does the term 'parameter' refer to?

- A) A variable that is kept constant during an experiment
- B) A measure of central tendency
- C) A numerical characteristic of a mathematical model
- D) A type of biological specimen

Q.8 Which mathematical concept is essential for understanding rates of change in biological systems?

- A) Algebraic geometry
 - B) Differential equations
 - C) Linear algebra
 - D) Discrete mathematics
-

ASSESSMENT REPORT

2022-2023

Name/ Title of the Programme: Introduction to Commodity Market in india				
Date (DD/MM/YYYY): 27/02/2023		Total Participants / Beneficiaries (in figures) – Total : 31 Male: Female:		
Resource Person/ Chief Guest (If any or else NA):				
Sr. No.	Name of the Resource Person/ Chief Guest	Affiliation	Mobile Number	Email ID (if available)
Convener of Programme: Miss Kadambari Agaskar				
Brief assessment report of programme (in 250 - 300 words)		The primary objective of the course was to equip students with the fundamental knowledge and skills necessary for commodity and derivatives. Students were assessed through a comprehensive test containing brief questions related to the topics covered in the course. The test aimed to evaluate students' understanding of various aspects of commodity, derivatives, types, MCX etc. Key Findings: The overall performance of the students in the assessment was good, indicating a strong grasp of the essential concepts related to Commodity and Derivatives.

Brief report

In the academic year 2022-23 Department of Information technology- Computer Science-Data science introduced certificate courses for the students in addition to the curriculum. for assessment of "Data Science (Basic Module)"

Assessment is in 2 mode. One is Assignments which Students have to Solve on their own machine and Submit in Google Classroom and Another is Online exam through Google Form

- On 15th May 2023, students took an examination on the first unit of Basic Data Science.
- On 16th May 2023, students sat for another examination covering the second unit of Basic Data Science.
- Finally, on 17th May 2023, students completed the third and final unit of Basic Data Science.

Overall, the three-day series of examinations provided valuable feedback regarding student comprehension levels across different areas within Basic Data Science. While many students excelled at certain aspects, there is room for improvement in others.

Advanced Techniques of Accommodation

VIVA College Department of Hotel & Tourism Management

Date: 1st Feb 2023 to 18th Feb 2023

Total Participants / Beneficiaries (in figures) –
84 students (10 females and 74 males)

Resource Person/ Chief Guest (If any or else NA): Mr. Prasad Patil

Brief report

The Department of **Hotel & Tourism Management** at **VIVA College** conducted a successful certificate course on Advanced Techniques of Accommodation, designed to enhance the capabilities of students in understanding contemporary hospitality.

Assessment of the course included the following:

Advance Technic Flower Arrangement.

Linen Origami.

Risk & Environmental Management

Grooming Standards and Personality Development

Mrs. Kirti Chalke
Course coordinator

Mr. Vaibhav Patil
Head of Department

ASSESSMENT REPORT

2022-2023

Name/ Title of the Programme: Aquascaping and Freshwater Aquarium Management				
Date (DD/MM/YYYY): 10/01/2023		Total Participants / Beneficiaries (in figures) – Total : 70 Male: Female:		
Resource Person/ Chief Guest (If any or else NA):				
Sr. No.	Name of the Resource Person/ Chief Guest	Affiliation	Mobile Number	Email ID (if available)
Convener of Programme: Miss Sonal Salvi				
Brief assessment report of programme (in 250 - 300 words)		<p>The primary objective of the course was to equip students with the fundamental knowledge and skills necessary for effectively managing fish tanks through the principles of aquascaping. Students were assessed through a comprehensive test containing multiple-choice questions (MCQs) related to the topics covered in the course. The test aimed to evaluate students' understanding of various aspects of fish tank management, including water quality maintenance, plant care, fish compatibility, and design principles.</p> <p>Key Findings:</p> <p>Understanding of Aquatic Ecosystems: The majority of students demonstrated a solid understanding of the concepts related to aquatic ecosystems, including the nitrogen cycle, water parameters, and the importance of biological filtration.</p> <p>Plant Care and Maintenance: Students exhibited proficiency in identifying aquatic plants and understanding their care requirements, such as lighting, CO2 supplementation, and nutrient dosing.</p> <p>Fish Selection and Compatibility: Most students were able to identify suitable fish species for different tank sizes and environments, considering factors like temperament, water parameters, and compatibility with other tank inhabitants.</p> <p>Design Principles: Students showed a satisfactory grasp of aquascaping design principles.</p> <p>The overall performance of the students in the assessment was commendable, indicating a strong grasp of the essential concepts and techniques of aquascaping.</p>

SR . NO.	QUESTIONS	A	B	C	D	ANSWER
1	In _____ fishes females can store sperms for later fertilization and may produce young every four weeks. Pregnant females are recognizable by black triangle between anal and pelvic fins.	<i>Poecilia reticulata</i>	<i>Xiphophorus helleri</i>	<i>Xiphophorus maculatus</i>	<i>Poecilia velifera</i>	<i>Poecilia reticulata</i>
2	_____ fish is an inch and a half in length. What this fish lacks in size, it makes up for in color.	<i>Pterophyllum spp</i>	<i>Symphysodon spp.</i>	<i>Neon tetra fish</i>	<i>Flower horn fish</i>	<i>Neon tetra fish</i>
3	_____ which one of the following fish has been banned for importation in Australia. have a lifespan of 10–12 years. They are usually kept at a water temperature of 80–85 °F, and a pH of 7.4–8.0	<i>Pterophyllum spp</i>	<i>Symphysodon spp.</i>	<i>Neon tetra fish</i>	<i>Flower horn fish</i>	<i>Flower horn fish</i>
4	Which one of the following options is considered as “beautiful warrior”?	daniofish	bettafish	angelfish	goldfish	bettafish
5	Which one of the following is a mistakenly believed to be a brackish water fish, and while they are highly adaptable to salt water conditions, they prefer a freshwater environment?	molly fish	tangerine fish	platy fish	swordtail fish	molly fish
6	Which one of the species is distinguished by having a medium to large swordtail with a long straight caudal appendage?	molly fish	tangerine fish	platy fish	swordtail fish	swordtail fish
7	Which one of the following option is a live brearer fish?	Siamese fighter fish	Discus fish	Danio fish	Platy fish	Platy fish
8	Which one of the following option is not a live brearer fish?	tangerine fish	guppy fish	molly fish	angel fish	angel fish
9	_____ like plants that grow in the tank, such as Pothos, and spend much of their time hiding or playing among the roots.	Siamese fighter fish	Discus fish	Danio fish	Platy fish	Platy fish
10	_____ fishes should be kept in a filtered, heated aquarium with ample room for decorations and to swim around at a temperature between 76° and 84° F.	daniofish	bettafish	siamese fighter fish	goldfish	siamese fighter fish
11	Scientific name of Striped catfish is _____.	<i>Pangasiandon hypophthalmus</i>	<i>Clarius fish</i>	<i>Pterophyllum spp</i>	<i>Symphysodon spp.</i>	<i>Pangasiandon hypophthalmus</i>
12	_____ undertake lateral migrations from the larger water bodies, in which they feed and mature at about the age of 12 months, to temporarily flooded marginal areas in order to breed.	<i>Clarius fish</i>	<i>Pangasiandon hypophthalmus</i>	<i>Heteropneustes sps.</i>	<i>Anabas species</i>	<i>Clarius fish</i>
13	_____ species is benthopelagic, typically living within the ranges of pH 6.5-7.5 and 22-26 °C.	<i>Pangasiandon hypophthalmus</i>	<i>Clarius fish</i>	<i>Pterophyllum spp</i>	<i>Symphysodon spp.</i>	<i>Pangasiandon hypophthalmus</i>
14	_____ can breed as often as every 30 days.	Siamese fighter fish	Discus fish	Danio fish	Platy fish	Platy fish
15	_____ have a lifespan of 10–12 years. They are usually kept at a water temperature of 80–85 °F, and a pH of 7.4–8.0.	<i>Pterophyllum spp</i>	<i>Symphysodon spp.</i>	<i>Neon tetra fish</i>	<i>Flower horn fish</i>	<i>Flower horn fish</i>
16	The life cycle of _____ is intimately tied to the annual monsoon flood cycle, with spawning taking place in May - June at the start of the monsoon season.	<i>Pangasiandon hypophthalmus</i>	<i>Tilapia fish</i>	<i>Pterophyllum spp</i>	<i>Clarius fish</i>	<i>Pangasiandon hypophthalmus</i>
17	The _____ fish has attracted a cult following of collectors and has created a multimillion dollar international industry complete with shows, competitions, and reputed online breeders.	daniofish	bettafish	angelfish	discus fish	discus fish
18	In which of the following stage, <i>M.rosenbergii</i> are whitish, grey and brownish in colour ?	larval	post larval	juvenile	adult	post larval
19	Select the accurate reason which slows the shell hardening process in <i>M. rosenbergii</i> .	acidic water or a lack of calcium	alkaline water or a lack of calcium	acidic water or a lack of copper	alkaline water or a lack of iron	acidic water or a lack of calcium
20	Which is the right size for <i>M.rosenbergii</i> at its 1st stage zoeae ?	0.1mm	1mm	1.5mm	2mm	2mm
21	Which one of the following temperature range is optimum for <i>M. rosenbergii</i> to under go metamorphosis ?	20-30 degree Celcius	23-40 degree Celcius	28-31 degree Celcius	30-40 degree Celcius	28-31 degree Celcius
22	In <i>M.rosenbergii</i> ,the females lays _____ number of eggs	5 -10 eggs	50 - 100 eggs only	5,000 -1,00,000 eggs	5,00,000 -1,00,00,000 eggs	5,000 - 1,00,000 eggs
23	Which one of the following is <i>Symphysodon</i> spp.?	discus fish	danio fish	goldfish	platy fish	discus fish
24	_____ is native to the Amazon Basin in Peru, Colombia, and Brazil	danio fish	platy fish	angelfish	goldfish	angelfish
25	Angel fish belong to _____ spp.	<i>Pterophyllum</i>	<i>Danio</i>	<i>Betta splendens</i>	<i>Symphysodon</i>	<i>Pterophyllum</i>

Brief report of programme

The Basic Course on e-Return Filing, GST course for students covers fundamental concepts of Goods and Services Tax, including its principles, regulations, and practical applications. Students gain insights into tax compliance, filing procedures, and understanding the impact of GST on various sectors. The course aims to equip them with the knowledge necessary for navigating the complexities of GST in professional settings. Students will be able to file personal e-Return for Income Tax. Students will be able to file GSTR online. The course Basic Course on e-Return Filing, GST was conducted by the professors of the college.

Brief report of programme

The "Resume Building" short-term course was conducted to equip degree college students with the necessary skills and knowledge to create effective and impactful resumes. The course aimed to enhance students' understanding of resume writing, formatting, and tailoring to specific job roles or industries. This report assesses the effectiveness and outcomes of the course.

The "Resume Building" short-term course was highly effective as Talent acquisition manager ms Bobby Rathore from the company called "Dream Sports" personally came and conducted one to one interview sessions with the students.

And also conducted some group discussion, debates and interactive sessions. The success of this course underscores the importance of practical and skill-based learning in preparing students for their professional careers.

Convener of Programme: Mr Kaustubh Jadhav				
Brief assessment report of programme (in 250 - 300 words)		<p>The objective of the assessment was to evaluate students' comprehension and application of concepts taught in the Data Presentation and Visualization course, focusing on topics such as data visualization techniques, probability theory, and the application of the chi-square test.</p> <p>Students were assessed through quizzes administered at the end of each session, covering the material presented during that session. These quizzes were designed to gauge students' understanding of key concepts.</p> <p>Key Findings:</p> <p>Understanding of Data Visualization Techniques: The majority of students demonstrated a strong understanding of various data visualization techniques, including bar charts, line graphs, scatter plots, and heat maps. They were able to interpret visualized data effectively to derive meaningful insights.</p> <p>Proficiency in Probability Theory: Students exhibited competency in basic probability theory, including calculating probabilities, understanding conditional probability, and applying probability distributions such as the binomial and normal distributions to real-world scenarios.</p> <p>Application of Chi-Square Test: Most students showed proficiency in applying the chi-square test to analyze categorical data and assess the independence of variables. They were able to interpret the results of the test and draw conclusions based on the observed data.</p> <p>The overall performance of the students in the assessment was commendable, indicating a solid grasp of the concepts and techniques covered in the course. They demonstrated the ability to effectively present and visualize data, apply probability theory to solve problems.</p>		
News Paper Cutting (if applicable/ or else NA)		NA		

Quiz 1: Data Presentation and Visualization

Which of the following visualizations is most suitable for representing the distribution of a continuous variable? a) Bar chart b) Scatter plot c) Pie chart d) Histogram

What type of data is best represented using a pie chart? a) Continuous b) Categorical c) Ordinal d) Nominal

Which of the following is not a commonly used data visualization tool? a) Line graph b) Box plot c) Scatter plot d) Histogram

Quiz 2: Probability and Probability Distributions

If the probability of event A is 0.6 and the probability of event B is 0.4, what is the probability of both events occurring? a) 0.24 b) 0.6 c) 0.4 d) 0.2

Which probability distribution is used to model the number of successes in a fixed number of independent Bernoulli trials? a) Normal distribution b) Binomial distribution c) Poisson distribution d) Exponential distribution

In a normal distribution, what percentage of data falls within one standard deviation from the mean? a) Approximately 34% b) Approximately 68% c) Approximately 95% d) Approximately 99.7%

Quiz 3: Sampling Methods and Sampling Distributions

What is the sampling method where every member of the population has an equal chance of being selected? a) Convenience sampling b) Cluster sampling c) Systematic sampling d) Simple random sampling

The sampling distribution of the sample mean tends to be normally distributed when: a) The sample size is small b) The population is normally distributed c) The population size is large d) The sampling method is biased

Quiz 1: Data Presentation and Visualization

Which of the following visualizations is most suitable for representing the distribution of a continuous variable? a) Bar chart b) Scatter plot c) Pie chart d) Histogram

What type of data is best represented using a pie chart? a) Continuous b) Categorical c) Ordinal d) Nominal

Which of the following is not a commonly used data visualization tool? a) Line graph b) Box plot c) Scatter plot d) Histogram

Quiz 2: Probability and Probability Distributions

If the probability of event A is 0.6 and the probability of event B is 0.4, what is the probability of both events occurring? a) 0.24 b) 0.6 c) 0.4 d) 0.2

Which probability distribution is used to model the number of successes in a fixed number of independent Bernoulli trials? a) Normal distribution b) Binomial distribution c) Poisson distribution d) Exponential distribution

In a normal distribution, what percentage of data falls within one standard deviation from the mean? a) Approximately 34% b) Approximately 68% c) Approximately 95% d) Approximately 99.7%

Quiz 3: Sampling Methods and Sampling Distributions

What is the sampling method where every member of the population has an equal chance of being selected? a) Convenience sampling b) Cluster sampling c) Systematic sampling d) Simple random sampling

The sampling distribution of the sample mean tends to be normally distributed when: a) The sample size is small b) The population is normally distributed c) The population size is large d) The sampling method is biased

Quiz 4: Understanding Correlation and Regression in Biostatistics

In correlation analysis, if the correlation coefficient is close to +1, it indicates: a) A strong negative relationship b) No relationship c) A strong positive relationship d) Weak correlation

Regression analysis is used to: a) Predict future values based on past data b) Determine causal relationships between variables c) Identify patterns in categorical data d) Test hypotheses about population parameters

Probability and Probability Distributions: Question: What is the probability of rolling a 5 on a fair six-sided die? a) $\frac{1}{6}$ b) $\frac{1}{3}$ c) $\frac{1}{2}$ d) $\frac{1}{5}$

Sampling Methods and Sampling Distributions: Question: In a random sampling method, every member of the population has: a) an equal chance of being selected b) no chance of being selected c) a predetermined chance of being selected d) a decreasing chance of being selected

Understanding Correlation and Regression in Biostatistics: Question: What does a correlation coefficient of -0.8 indicate about the relationship between two variables? a) Weak negative correlation b) Moderate negative correlation c) Strong negative correlation d) No correlation

Randomized Controlled Trials and Observational Studies: Question: Which of the following is an example of an observational study? a) Clinical trial testing the efficacy of a new drug b) Survey assessing dietary habits and health outcomes c) Experiment investigating the effect of a new drug d) Randomized trial comparing two treatments

One-way and Two-way ANOVA: Question: In a one-way ANOVA, how many groups or levels of the independent variable are compared? a) One b) Two c) Three or more d) None

Applications of Chi-Square Tests in Biological Research: Question: A chi-square test is typically used to compare: a) Means of two groups b) Proportions of two groups c) Variability within a single group d) Correlation between two variables

Basics of Survival Analysis in Biostatistics: Question: Survival analysis is commonly used to analyze: a) Continuous outcomes b) Time-to-event data c) Categorical variables d) Cross-sectional data

Randomized Controlled Trials and Observational Studies: Question: Which type of study design involves randomly assigning participants to either an experimental group or a control group to evaluate the effectiveness of a treatment? Options: a) Observational Study b) Cohort Study c) Case-Control Study d) Randomized Controlled Trial

Randomized Controlled Trials and Observational Studies: Question: Which type of study design involves randomly assigning participants to either an experimental group or a control group to evaluate the effectiveness of a treatment? Options: a) Observational Study b) Case-Control Study c) Randomized Controlled Trial d) Cross-Sectional Study

Basics of Survival Analysis in Biostatistics: Question: Survival analysis is primarily used to analyze what type of data? Options: a) Categorical Data b) Continuous Data c) Time-to-event Data d) Nominal Data

DEPARTMENT OF FILM, TELEVISION AND NEW MEDIA
PRODUCTION

ADD ON COURSE ASSESSMENT Feb-2023

FILM APPRECIATION- I

In the film appreciation-I add-on course, the **Discussion method** was used for assessing our understanding and appreciation of films. This method, rooted in pedagogical theories such as constructivism and social constructivism, fosters an environment where knowledge is actively built through collaborative exchanges.

Through the lens of constructivism, Student discussions are seen as a means to construct new understanding by linking new information to existing knowledge. In our discussions, we not only share our perspectives but also draw connections between the films we study and our personal experiences or other works of art. This process of connecting ideas helps Teachers and Students deepen understanding and appreciation of the cinematic art form.

Furthermore, the discussion method aligns with social constructivism, which emphasizes the importance of social interaction in learning.

In our discussions, we engage in dialogue with our peers and the teacher, presenting diverse viewpoints and challenging each other's assumptions. This collaborative exchange not only enhances our critical thinking skills but also helps us develop a richer, more nuanced understanding of the films we analyze.

Overall, the discussion method in our film appreciation course served as a dynamic platform for exploring, analyzing, and interpreting films, ultimately enriching our cinematic literacy and appreciation.

Rubrics for Assessment

No.	Units for assessing	Topics for assessing
1	Story/ Theme Narrative Depth: Exploring Cinematic Storytelling and Themes	Narrative structures in film Themes and motifs in film Symbolism and allegory in film Character development and arc

	(10 marks)	Plot devices and narrative techniques
2	Film Theories Cinematic Discourse: Theoretical Frameworks in Film Studies (10 marks)	Auteur theory, Formalism and realism Genre theory, Realism, Surrealism, Modernism, Postmodernism Cultural Studies, Postcolonial Film Theory, Semiotics, Narrative Theory, Feminist Film Theory, Marxist Film Theory, Expressionism, New Wave, Modernist Film, Soviet Montage Theory, New Hollywood, Italian Neorealism, German Expressionism, French New Wave, Poetic Realism, etc.
3	Auteurship Auteur Theory: Examining Directorial Authorship in Film (10 marks)	Definition and history of auteur theory Auteurs and their body of work Authorship in collaborative filmmaking Critiques and controversies of auteur theory Modern interpretations of auteurism
4	Sound The Soundtrack of Cinema: A Study in Film Sound Design (10 marks)	Elements of film sound (dialogue, music, sound effects) Sound editing and mixing Foley and sound effects creation Music in film: score vs. soundtrack Sound design in narrative and experimental film
5	Edit Seamless Narratives: The Art of Film Editing (10 marks)	History and evolution of film editing Continuity editing and montage Editing for rhythm and pacing Special effects and digital editing Experimental editing techniques
6	Impact Cinematic Influence: The Societal Impact of Film (10 marks)	Film as a reflection of society Film's role in shaping cultural norms and values Political and social impact of film Film censorship and regulation Globalization and cross-cultural influence in film

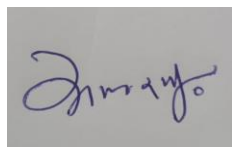

7	Subjective thinking Perspectives in Film: The Role of Subjectivity in Interpretation (10 marks)	Subjectivity vs. objectivity in film criticism Psychological and emotional responses to film Personal interpretation and meaning- making in film Cultural and contextual influences on film interpretation The ethics of subjective thinking in film analysis
8	Student attendance (30 marks)	As per daily attendance (75%)

Final Assessment Chart of students (roll-no wise)

Aggregate marks for discussion sessions

Roll no:	01	02	03	04	05	06	07	08	09	10	11	12
Story/ Theme	8	7	8	9	9	8	7	8	7	8	9	9
Film Theories	5	6	7	5	5	6	6	5	5	6	5	6
Auteurship	5	6	6	6	7	5	7	6	6	7	5	7
Sound	9	9	8	8	9	8	9	8	9	9	9	9
Edit	9	9	9	9	9	9	8	8	9	9	9	9
Impact	9	9	9	9	9	9	9	9	9	9	9	9
Subjective thinking	9	9	9	9	9	9	9	9	9	9	9	9
Attendance	25	25	25	25	25	25	25	25	25	25	25	25

Remark: Students were struggling with auteur theory and film theory so they were properly explained about those topics

Brief report

The course was attended by 663 participants including 347 males and 316 female student participants. The assessment was carried out through, written exercise. The certificate program Fundamentals of Maths and Statistics focused on the students who were taught the basic knowledge of Maths as well as statistics, focusing on the students who opted out Maths subject. The assessment was conducted for 20 marks with MCQs and regularity and punctuality carried 5 Marks. Consistency in attending classes, Positive attitude towards learning, collaboration, and problem-solving. The certificates were issued to students by department on successful completion of course. The participants have shown commendable progress throughout the course. The overall commitment to learning and positive attitudes are noteworthy, providing a strong foundation for future educational endeavors.

Human Rights Test

DATE : 26/08/2022

TIME : 10am- 11.00 am

Student Name : _____

Marks 100

Class : _____ Roll no _____

Student Sign _____ Teacher Sign _____

NB: Each question carries 1 mark.
Tick the correct answer.

1) Which of the following is the first charter of Human's rights?

- a) Bill of rights
- b) Constitution of media
- c) The Cyrus cylinder
- d) None of the above

2) Who played an important role in international human rights law?

- a) Economic summit
- b) World War
- c) The United Nations
- d) None of the above

3) Who adopted the landmark document, the universal declaration of human rights?

- a) UNESCO
b) UNICEF
c) UNO
d) None of the above

4) When was the universal declaration of human rights adopted by the UNO?

- a) 10th December 1946
b) 10th December 1947
c) 10th December 1949
d) 10th December 1948

5) Who was the first chairman of the commission on human rights?

- a) Thomas Jefferson
- b) Thomas Paine
- c) Eleanor Roosevelt
- d) None of the above

6) The Universal declaration of human rights was adopted under whose chairmanship?

- a) Adolf Hitler
b) Jawaharlal Nehru
c) Eleanor Roosevelt
d) None of the above

7) How many articles are there in the Universal Declaration of human rights?

- a) 15
b) 30
c) 25
d) 35

8) In which of the following year, the declaration of the rights of the child passed by the UN?

- a) 1949
b) 1959
c) 1969
d) None of the above

Brief report

The Human Rights (Basic Concept) course aimed to equip students with a profound understanding of human rights principles and their relevance in contemporary society. The course objectives included grasping the essence of human rights, comprehending the noble policies of the Indian Constitution, and recognizing the interplay between fundamental rights and constitutional guidelines. Additionally, students were expected to appreciate the significance of human rights in daily life, fostering a vision for a welfare state and providing justice to marginalized sections.

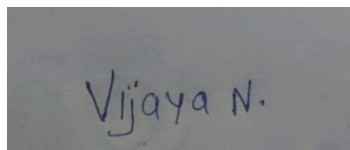

The assessment methodology comprised MCQ-type papers and practical applications through presentations and dissertations. The MCQ papers, consisting of 50 questions with a total of 100 marks, evaluated students' understanding of theoretical concepts, legal frameworks, and case studies

related to human rights. The presentations and dissertations, covering topics such as social justice, equality, and freedom of speech, assessed critical thinking and research skills.

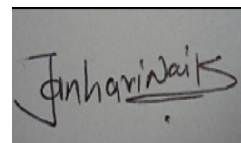

Overall, the assessment process offered a comprehensive evaluation of students' knowledge, analytical capabilities, and communication skills in the field of human rights. The successful completion of the course by all 100 students reflects their commitment to promoting human rights principles. The assessments not only measured academic achievement but also nurtured critical thinking and advocacy skills necessary for addressing global human rights issues. With their acquired knowledge and skills, students are now poised to serve as informed advocates for human rights in their respective fields and communities.

Brief report of programme

The course was attended by 116 participants including 59 male and 57 female student participants. The assessment was carried out through, oral viva-voce, and practical assignments. The assessment covered the following key aspects:
Remembering and Understanding (oral viva-vice) (25 mark)
Participants' ability to recall and comprehend course content.
Analytical applied Skills(Experiment): (20 mark)
Application of critical thinking to solve problems.
Regularity and punctuality : (5 mark)
Consistency in attending classes, Positive attitude towards learning, collaboration, and problem-solving.
The certificates were issued to students by department on successful completion of course.
The participants have shown commendable progress throughout the course. The overall commitment to learning and positive attitudes are noteworthy, providing a strong foundation for future educational endeavours.

Practical assessment question paper.

Volumetric Exercise- Total hardness in well water	
(Total Marks : 20)	
You are given a sample of well water for determining the total hardness.	
Instructions : Prepare 0.01 M EDTA solution in the 100 cm ³ standard volumetric flask. Take 10 cm ³ of the supplied well water sample. Add 2 to 3 cm ³ of buffer solution (pH = 10), and Eriochrome Black T as an indicator. Titrate the solution against 0.01 M EDTA solution. Present your results in the following form in your answer-book.	
Results :	
1]	10 cm ³ of the supplied sample of well water required = _____ cm ³ of 0.01 M EDTA solution.
2]	The total hardness of the supplied sample of well water = _____ ppm of CaCO ₃ .

Brief report

In the academic year 2022-23 Department of Physics introduced Certificate Course for the students in addition to the Curriculum. The course was successfully completed in the month of November-December. Duration of the course was 30 hours. Curriculum was set and delivered by the in-house faculty. Mode of the delivery of the course was offline in the VIVA College Physics laboratory. On the completion of the course, evaluation test was conducted and certificate was issued. The Evaluation test was conducted in the form of viva-voce based on the experiments practically performed individually by the students. Study of Vernier Calliper, Micrometer, Spherometer- How to take measurement on the instrument, Spectrometer- how to handle the instrument, use in Lab, precaution to take, skills used for Travelling microscope, Electronics Balance, Study of Power supplies, Dual power supply, Batteries used in Lab.

ASSESSMENT REPORT SHIKATO MARATHI

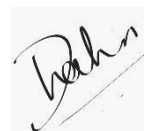

certificate course A.Y 2022-2023

Name of the certificate course:	Shikato Marathi Certificate Course
Date: 01 st January 2023 to 20 th January 2023	Total Participants : 100 students (54 males and 46 females)
	
Name of the teachers who conducted the lectures:	<p>Syllabus drafted by:</p> <ol style="list-style-type: none"> 1. Ms. Kavita Patil 2. Mr. Mahesh Jagtap 3. Mr. Pravin Patil <p>Course conducted by:</p> <ol style="list-style-type: none"> 1. Ms. Kavita Patil 2. Mr. Mahesh Jagtap 3. Mr. Pravin Patil
Brief Assesment report of Certificate Course (in 250 -300 words)	<p>This program shall emphasize communicative competence in Marathi listening, speaking, and understanding skills.</p> <p>Understand and use familiar everyday expressions and very simple sentence which relate to concrete needs. Proficiency in script, elementary language structures and basic communication skills.</p>

	<p>Even though we use Marathi language in daily life, it is very important to have knowledge of English language in educational level and further in workplace. This course was started with this goal in mind.</p> <p>Through this course, not only the knowledge of the students about the language was revised, but also they were properly guided about their mistakes, fears and misunderstandings about the language.</p> <p>Marathi language is the mother tongue of many of these students. Many of these students have learned through English and many of them are from Marathi families, but because of their education in English, writing in pure Marathi and reading Marathi fluently is a challenge for many students. But by understanding their problems, special emphasis was given on how to make them proficient in Marathi language as well.</p> <p>For this they were given some assignments which were very important to improve their grammar and language. In this course, the children were given the necessary knowledge to use the language in daily life as well as in practice. Efforts were also made at various levels to make them more fond of the language.</p> <p>In this course students can get valuable knowledge about Marathi language, it is very useful for their academic as well as personal growth.</p>
