Brief report of programme (in 150 -200 words)

It was a 2 day-1 night Excursion for FY, SY and TY students from the Department of Botany, Biotech and Biochem where students have 2 Industrial Visits.

On the first day, i.e. 15/02/2023, First we visited Sahyadri Farms which was located in Mohadi, Nashik. There Ms. Archana Patil and her team gave all the product information to students along with that they also provided a small tour in their manufacturing units. It is India's largest integrated platform for fruits and vegetables.

They have shown that the industry has a large association with farmers of different states of Maharashtra. The industry has occupied more than 30,000 acres of land, where they not only manufacture the different organic products but also they organically cultivate different varieties of fruits and vegetables.

On Second day, i.e. 16/02/2023, we visited another industry, The Grover's Zampa Vineyards. There Mr. Sushant Soni had explained the entire process of grape cultivation and selection for wine preparation. He also gave a nice tour of the entire vineyard along with their testing labs. He had also shown the farms and explained about the varieties of grapes, selection criteria, cleaning and segregation process. Also shown the traditional and modern methods of wine production, their manufacturing and storage areas.

He also provided the correct knowledge about the purchasing of wine according to its aging period to students.
