She introduced the Speaker of the programme and talked about the life and experiences of the Speaker.</p> <p>The session began with Mr. Swapnil throwing some light on the importance of the communication and interview skills in daily and professional lives. Developing communication skills can help many aspects of your life, from your professional career, to social gatherings, to your family life. In today's hectic world, we rely heavily on sharing information, resulting in greater emphasis being placed on having good communication skills. He also shared some insightful information about One on one interview preparation, Tips and tricks as per different job profile requirements and Over all techniques for communication from his 13 years of experience in the corporate world. He also highlighted the fact that Being able to actively listen is an important communication skill. It's easily overlooked, as people tend to focus more on what they want to say, rather than listening to what the other person is saying. Knowing when to pause to allow the other person to talk is an important skill. It conveys respect and a willingness to hear the other person's point of view. These skills will help them and their colleagues have more open and useful exchanges, where each contributor's point of view is expressed and heard. This should lead to a more positive working environment.</p> <p>To the end of the session the speaker had a question and answer session with the students in which the students took an active participation and got their doubts cleared.</p>

	Management had organized an amazing practical on sand cooking on 24-12- 2021 i.e Friday for the students of TY BACA, this type of cooking was a part of their syllabus. We had our lovely and supportive guests from VIVA and by their personal presence the event was graced. Young budding chef prepared this delicious tempting food starting from “tomato basil soup with grilled cheese crostini, sand baked lamb with laccha paratha to apple tart tannin” and many more..... The rustic cooking was cooked in our ground situated in Old campus where the students along with the help of our Culinary chef and faculties dug a Pit which was plastered with clay and soil mixture and with wood, charcoal the fire was lit and cooking commenced. We had chicken, red meat, prawns, vegetables and many more which were cooked and served at our restaurant. The decoration was done by our room division management faculties which added glamor to the event. We are happy and excited to share a few photographs. Of course, the entire event was difficult to capture in the pictures, our guests have carried those memories in their hearts.

	<p>Director. How to watch a movie? Who should understand what while watching the movie? What will be the changes in the important technical aspects of the film? How to watch a movie? Sir discussed with the students many such questions. Many things / issues were shown to the students not only verbally but also through visuals. In it he showed the students three films, and solved the student's question with the help of the film. This film shaped the interest in a dialogue workshop in very simple language by asking students to write many important points. He took care that no student would get bored in any way and continued the workshop laughing with the students. The students also responded well to the workshop, expressing their interest in the three-hour workshop. Many students asked him questions even after the workshop was over.</p>
