Department of Economics: Add-on Course on Basics of Competitive Exams

Name/ Title of the Programme:	
Date(DD/MM/YYYY): August 6th to August 26th, 2022	**Total Participants / Beneficiaries (in figures) – Total: 100**
Kindly Paste (2 –4 photographs) with proper details :	
Brief report of the programme (in 250 -300 words)	The Department of Economics organized an Add-on Course titled "Basics of Competitive Exams" from August 6th to August 26th, 2022. The primary aim was to equip 100 students from B.com, BMS, and BA with essential skills and knowledge required for various competitive examinations. **Course Overview:** The course was structured to cover a wide range of topics essential for competitive exam preparation. The curriculum included an introduction to various competitive exams, understanding exam patterns, time management strategies, problem-solving skills, and practical sessions involving mock tests and practice exams. **Key Activities and Highlights:** Inaugural Session (August 6th, 2022): • Welcome address by the department head. • Overview of the course objectives and expectations. • Introduction of faculty members and guest speakers. Interactive Lectures and Discussions: • Expert lectures on different aspects of competitive exams. • Interactive discussions on exam patterns, syllabus, and strategies for effective preparation. • Special sessions by guest speakers from diverse fields sharing their experiences. Practical Sessions:

- Conducting mock tests and practice exams to simulate real exam conditions.
- Providing practice materials and resources for self-assessment.
- Group exercises to enhance problem-solving and critical thinking skills.

Assessments and Feedback:

- Regular assessments, quizzes, and assignments to gauge students' understanding.
- Continuous feedback from instructors to guide students' progress.
- Soliciting feedback from students to evaluate the course effectiveness.

Participant Engagement:

- Active participation of students in group discussions and interactive sessions.
- Student-led presentations on selected topics related to competitive exams.
- Formation of study groups for collaborative learning.

Outcomes:

Enhanced Knowledge: Participants gained a comprehensive understanding of the structure and requirements of competitive exams.
Improved Skills: Students developed effective time management, problem-solving, and critical thinking skills crucial for exam success.
Increased Confidence: The course instilled confidence and motivation among students aspiring to excel in competitive examinations.

Conclusion:

The Add-on Course on Basics of Competitive Exams was a resounding success. It provided valuable insights and practical skills to the participants, preparing them for the challenges of competitive exams. The active engagement of students and positive feedback indicate the effectiveness of the course in achieving its objectives.

	The Department of Economics expresses gratitude to all faculty members, guest speakers, and students for their active participation and contribution to the success of this program. Next Steps: The department plans to continue organizing similar add-on courses in the future, aligning with the evolving needs and aspirations of the students.

Introduction to BioMathematics -Biostatistics 2023 Syllabus

30-hour add-on course syllabus for BioMathematics involves combining principles from biology and mathematics.

Course Title: Introduction to BioMathematics and Biostatistics

Course Description:

This course explores the interdisciplinary field of BioMathematics, integrating principles from biology and mathematics to analyze and model biological phenomena. Topics include mathematical modeling of biological processes, statistical analysis of biological data, and the application of mathematical tools in solving biological problems.

WEEK 1: Introduction to BioMathematics

- Overview of BioMathematics: Definition, scope, and applications
- Historical development and key contributions
- Importance of quantitative approaches in biology

WEEK 2: **Mathematical Tools for BioMathematics**

- Review of relevant mathematical concepts (algebra, calculus, differential equations)
- Introduction to probability and statistics in biological contexts
- Linear algebra applications in biological systems

WEEK 3 : Population Dynamics

- Logistic growth models
- Predator-prey interactions
- Competition models
- P- Value, Z-test, t-test, Normal distribution for population Dynamics.

WEEK 4 : Data Analysis in Biology

- Experimental design and data collection
- Statistical analysis P- Value, Z-test, t-test, Normal distribution for biological data.
- Testing of Hypothesis
- Null-Hypothesis,
- Alternative hypothesis

WEEK 5: Genetics and Bioinformatics

- Mendelian genetics and probability
- Introduction to genetic modeling
- Basics of bioinformatics and computational biology

WEEK 6 : Research Project

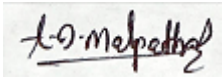

- Formulation of a small-scale BioMathematics research project
- Data collection and analysis
- Presentation of findings

WEEK 7: Ethical Considerations in BioMathematics

- Ethical issues in biological research
- Discussion on bioethical case studies

Final Exam and Course Wrap-Up

- Final exam covering the entire course content
- Reflection on the course and feedback
- Certificate distribution

Brief report

In the academic year 2022-23 the Department of Biotechnology in association with the Mathematics Department introduced certificate courses for the students in addition to the curriculum. The course was successfully completed in the month of March. Duration of the course was 30 hours. Curriculum was set and delivered by the in-house faculty of the Mathematics Department by course coordinator Mrs. Archana Malpathak. Mode of the delivery of the course was offline in the Old VIVA College. On the completion of the course, an evaluation test was conducted and a certificate was issued.

Biostatistics Excelerator : A Hand -on Journey

Course duration - 30hours

Mode of Delivery of curriculum - Offline

Starting from - 06-02-2023

Vishnu Waman Thakur Charitable Trust's
Bhaskar Waman Thakur College of Science
Yashvant Keshav Patil College of Commerce
Vidhya Dayanand Patil College of Arts
(VIVA College)
(NAAC ACCREDITED-'B' Grade, CGPA 2.69)

Syllabus "Biostatistics Excelerator: A Hands-On Journey"

Course Duration: 30 Hours

Session 1: Introduction to Biostatistics (2 hours)
- Overview of Biostatistics and its importance in scientific research
- Basic concepts: data types, variables, and levels of measurement
- Descriptive statistics: mean, median, mode, range, and standard deviation

Session 2: Data Presentation and Visualization (3 hours)
- Techniques for presenting data: tables and graphs
- Introduction to Microsoft Excel for data entry and Manipulation
- Creating basic charts in Excel for effective data visualization

Session 3: Probability and Probability Distributions (2 hours)
- Fundamentals of probability in biostatistics
- Probability distributions: normal distribution, binomial distribution

Session 4: Practical exercises using Excel for probability calculations (2 hours)

Session 5: Statistical Inference (2 hours)
- Sampling methods and sampling distributions
- Confidence intervals and hypothesis testing

Session 6: Correlation and Regression Analysis (3 hours)
- Understanding correlation and regression in biostatistics
- Interpretation of correlation coefficients and regression slopes
- Excel tutorials for correlation and regression analysis

Session 6: Experimental Design (2 hours)
- Principles of experimental design in biostatistics
- Randomized controlled trials and observational studies

Session 7: Analysis of Variance (ANOVA) (4 hours)-
Introduction to ANOVA and its applications in biology
- One-way and two-way ANOVA
- Excel demonstrations for ANOVA calculations

Session 8: Chi-Square Tests (3 hours) -
Understanding the chi-square test in biostatistics
- Applications of chi-square tests in biological research

- Hands-on practice with chi-square tests in Excel

Session 9: Survival Analysis (4 hours)

Basics of survival analysis in biostatistics
Kaplan-Meier estimator and log-rank test
Excel exercises for survival analysis

Session 10: Review and Case Studies (3 hours)
- Recap of key concepts covered in the course
- Application of biostatistical methods in real-world case studies
- Final hands-on project using Excel to analyze a provided dataset

Assessment: - Short quizzes at the end of each session (1 hour)
- Final project submission demonstrating proficiency in using Excel for biostatistical analysis

Participants who successfully complete the course, including quizzes and the final project, will receive a certificate of completion of the course.

9.	Assessment procedure	Tests, assignments, etc.
10.	Outcomes of the program	1 The 15-day Certificate Course in Course title - Biostatistics Excelerator : A Hand -On Journey organized by the Zoology Department and the Internal Quality Assurance Cell (IQAC) of VIVA College, Virar, commenced on 06th Feb. 2023 The course aimed to provide students with comprehensive knowledge Overview of Biostatistics and its importance in scientific research- Basic concepts: data types, variables, and levels of measurement Descriptive statistics: mean, median, mode, range, and standard deviation A total of 48 enthusiastic students enrolled in this course. The course was structured to cover a wide range of topics, including Participants will acquire a solid understanding of fundamental bio statistical concepts, enabling them to effectively analyze and interpret data using various statistical methods in Excel.

		Through case studies and the final project, learners will cultivate critical thinking skills, applying bio statistical knowledge to solve practical problems. This outcome emphasizes the practical application of statistical methods in the context of biological research. The teaching methodology employed during the course was a blend of lectures, practical demonstrations, and hands-on training. Experienced faculty members from the Zoology Department, provided valuable insights and guidance. The students were encouraged to actively participate in practical sessions, allowing them to apply their knowledge in real-world scenarios. Highlights of the Course: Several highlights of the course made it a memorable and enriching experience for the participants: **Data Presentation and Visualization** Techniques for presenting data: tables and graphs- Introduction to Microsoft Excel for data entry and Manipulation- Creating basic charts in Excel for effective data visualization **Probability and Probability Distribution**s Fundamentals of probability in biostatistics Probability distributions: normal distribution, binomial distribution **Practical exercises using Excel for probability calculations Statistical Inference** Sampling methods and sampling distributions Confidence intervals and hypothesis testing. **Review and Case Studies** - Recap of key concepts covered in the course Application of bio statistical methods in real-world case studies Final hands-on project using Excel to analyze a provided dataset data's **Assessment**: - Short quizzes at the end of each session Final project submission demonstrating proficiency in using Excel for bio statistical analysis

		The 15-day Certificate Course in Biostatistics Excelerator: A Hand -On Journey conducted by the Zoology Department and IQAC of VIVA College, Virar, was a resounding success. The participants not only gained valuable knowledge but also developed practical skills.

Certificate Course

(Department of I.T. C.S. & D.S.)

Data Science (Basic Module)

Learning Outcomes

After Successful completion of this course, students would be able to

- Working with data collection structures.
- Ability to work with data analysis using Python.
- Ability to solve real-world data analysis problems.
- Understand fundamentals of visualization.
- Ability to create dashboards using Power BI.

Unit	Topics	No. of Lectures
I	**Introduction:** What is Data Science?, Historical Background of Data Science, Basic Components of Data Science, How Data Science Work?, Main processes of Data Science, Data Science tools, Applications of Data Science, Real life usage of Data Science Systems, Top industries players of Data Science, Career in Data Science, Challenges faced by Data Science, Helpful Information about Data Science.	10
II	**Data Analysis** Introduction of Data Analysis: Overview of Data Analysis, Advantages, Disadvantages, Types of Data Analysis. Python: Introduction to Python, Libraries, basic commands, Introduction to Jupyter Notebook, Descriptive Statistics in Python, Pandas and Matplotlib.	10

	EDA(Exploratory data analysis):Data Cleaning, Imputation, Techniques, Data analysis and visualization(scatter diagram, correlation of analysis ,transformation, Data Analysis vs Data Analytic ,Qualitative Analysis vs Quantitative Analysis	
III	**Data Visualization** What is Data Visualization? and its fundamentals, Importance of Data Visualization in Data Science, Benefits of Data Visualization, Different Types of Data Visualization-distribution plot, box plot, violin plot, line plot, bar plot, scatter plot, histogram, pie chart, area plot, Data Visualization Process Tools and Software for Data Visualization using Power BI (what is Power BI and its uses) and Matplotlib using Python, Data Visualization Techniques in Data Science Advantages and Disadvantages of Data Visualization, Examples of Data Visualization in Data Science, Data Visualization Best Practices, Essential Skills for Data Visualization.	**10**

The Department of Biochemistry in association with IQAC proposes a short-term certificate course (Non-Credit) on Fundamentals of Microbiology Techniques (Course Code- SMTSTP01) (S= Science, MT= Microbiology techniques , STP= Short Term Program, 01- Assigned Number of the Course)

Course description:

This course is designed to provide college-level science students with a strong foundation in essential microbiology techniques. Participants will learn the principles and practical skills required for working with microorganisms in laboratory settings.

Batch 01 - 5th Sept - 9th Sept 2022

Batch 02 - 31st Oct - 4th Nov 2022

Batch 03 - 9th Jan - 13th Jan 2023

Batch 04 - 27th Feb - 3rd Mar 2023

Who can attend	Students
Batch size	25 Students maximum
Course duration	Total 30 Hrs
Course fees	Not applicable
Venue	Old VIVA College Instrumentation lab
Course Timing	9:00 am onwards (Theory) 9:00 am onwards (Practical, or when called for)
Resource Person	Mr. Vinodkumar Didwana Ms. Tanvi Bore Mr. Sunil Jaisawar
Contact Person	Mr. Vinodkumar Didwana (9673236800) Ms. Tanvi Bore (9765878999)

Course Content and Schedule:

Module	Day	Duration	Topic

1	**Day 1**	**3 hours**	Introduction to Microbiology
2	**Day 1**	**4 hours**	Laboratory Safety and Aseptic Techniques
3	**Day 2**	**4 hours**	Microscopy
4	**Day 2**	**4 hours**	Culture Techniques
5	**Day 3**	**6 hours**	Staining Techniques and Identification Techniques
6	**Day 4**	**4 hours**	Microbial Techniques in Biotechnology
7	**Day 4**	**3 hours**	Clinical Microbiology Techniques
8	**Day 5**	**2 hours**	Environmental and Industrial Microbiology Techniques

Assessment: Assessment will be based on regular quizzes, laboratory exercises, a final project, and a comprehensive final exam.

This 30-hour course offers a solid foundation in microbiology techniques for college students. It combines theoretical knowledge with hands-on practical experience, covering a wide range of topics to prepare students for future studies and careers in microbiology and related fields.

Brief report of programme (in 250 -300 words)	The department of Biochemistry organized a certificate course for first, second and third year students of life science during the academic year 2022-23. The syllabus of the course was designed by the committee which was appointed by the department. This course was run by the permission of the principal of our college. Then the notice was given to the students and also they were told about the importance of the course. The course was offered for 100 students and it was free of cost. The timetable was made for the course which was held in batches. There were a total of 4 batches with 25 students each. The course was inaugurated in the presence of principal sir. The major motto of this course was to provide college-level science students with a strong foundation in essential microbiology techniques. Through this course the participants will learn the principles and practical skills required for working with microorganisms in laboratory settings. Students were provided with certificates after successfully completing the course and also their oral feedback was taken regarding the course.

Department of Chemistry
Lab techniques in water Quality Analysis certificate course
Year: 2022

September :2022

The Department of chemistry in association with VIVA College proposes a short-term Lab techniques course Based on water Quality Analysis which begins from **3rd September 2022**

Course description: This comprehensive course is designed to provide participants with a thorough understanding of water sample analysis techniques. Covering both theoretical principles and practical applications, the course equips participants with the skills necessary for accurate water quality assessment. From proper sample collection to instrument operation and result interpretation, participants will gain hands-on experience to excel in environmental science and related fields

Batch 01 – 3th Sept - 8th Sept 2022
Batch 02 - 12th Sept – 16th Sept 2022
Batch 03 – 19th Sept – 23rd Sept 2022
Batch 04 – 26thSept – 30th Sept 2022

Who can attend	Students interested in Lab techniques in water Quality Analysis
Batch size	30 Students maximum
Course duration	Total 30 Hrs.
Course fees	Not applicable
Venue	Chemistry Lab, Old VIVA College
Course Timing	9:00 am onwards (Theory) 9:00 am onwards (Practical, or when called for)
Resource Person	Dr.Arti Dubey ,Dr.Promila Nagpal
Contact Person	Mrs. Seema Jadhav (7798083718)

Course Content and Syllabus:

Day 1	Introduction to Water Analysis, Importance of Water Quality Assessment, Regulatory Framework, Basic Parameters in Water Analysis. (6 hrs.)
Day 2	Water Sampling Techniques: Proper Collection Methods, Preservation of Water Samples Field Practices. (6 hrs.)
Day 3	Basic Water Chemistry: pH, Conductivity, and Dissolved Oxygen Chemical Indicators, Water Quality Standards Instrumentation in Water Analysis Spectrophotometry, Chromatography, Electrochemical, Methods, Calibration Techniques (6hrs)
Day 4	Practical Sessions: Hands-on Experience with Analytical Instruments, Calibration, Exercises, Analysis of Water Samples (10Hrs)
Day 5	Measures, Assessment and Certification:(2hrs)

Evaluation: Students will have to evaluate elements in the water quality analysis report, ensure comprehensive understanding of the reliability, validity, and relevance of the reported results.

- **A certificate** will be given to the participants after successful completion of the course.
- **Feedback session** will be conducted during the certificate distribution program

Brief report

In the academic year 2022-23 Department of chemistry introduced certificate courses for the students in addition to the curriculum. The course was successfully completed in the month of September 2022. Duration of the course was 30 hours. Curriculum was set and delivered by the in-house faculty. Mode of the delivery of the course was offline in the Old VIVA College Chemistry laboratory. On the completion of the course, an evaluation test was conducted and a certificate was issued.

Skill Development Certificate Course on *LABPRO*

Year: 2022-23

Proposes a short-term skill development certificate course on

LABPRO

Course description:

*****The course provides a comprehensive overview of basic Electronic components and to demonstrate their laboratory skills.

* To understand and practice the skills while performing physics practical using mentioned components.

* To understand the use of apparatus and their use without fear in day to day life.

* To correlate their physics theory concepts through practical.

* Understand the concepts of errors and their estimation in calculating physical parameters.

Who can attend- Students who are interested to explore their knowledge and skill.

Batch size –maximum 30 students

Course duration- Total 30 Hrs

Course fees- Not applicable

Venue- OLD VIVA College Physics Lab

Course Timing- 9:00 am onwards (Theory)
9:00 am onwards (Practical, or when called for)

SYLLABUS –

1) **Basic Electronic Components –**
   Study of different types of Resistors, Capacitors, Inductors, - various methods used to find their values and industrial applications

Explore Semiconductor based Devices- Diodes, Triode, SCR, LED, Photocell, Solar cell, Transistors-study of types of transistor, identification methods, IC- how to recognize the numbers on IC.

(20 hours)

2) **Basic Physical measuring instruments**

Study of Vernier Calliper, Micrometer, Spherometer- How to take measurement on the instrument, Spectrometer- how to handle the instrument, use in Lab, precaution to take, skills used for Travelling microscope, Electronics Balance,
Study of Power supplies, Dual power supply, Batteries used in Lab.

(10 hours)

Evaluation: Students will have to perform activity based on practical presentation and Viva-Vice

- A certificate will be given to the participants after successful completion of the course.
- Feedback session will be conducted during the certificate distribution program

Brief report

In the academic year 2022-23 Department of Physics introduced certificate courses for the students in addition to the curriculum. The course was successfully completed in the month of December. Duration of the course was 30 hours. Curriculum was set and delivered by the in-house faculty. Mode of the delivery of the course was offline in the VIVA College Physics laboratory. On the completion of the course evaluation test was conducted and certificate was issued.

Department of Botany
Skill Development Certificate Course on Mushroom Cultivation (SMCSTP01)
Year: 2023

January 2023

The Department of Botany in association with VIVA College Herbarium (VCH) proposes a short-term skill development certificate course (Non-Credit) on Mushroom Cultivation which begins from **1st February** Course Code-SMCSTP01) (s= Science, MC=Mushroom Cultivation, STP= Short Term Program, 01- Assigned Number of the Course)

Course description: The course provides a comprehensive overview of oyster mushroom cultivation techniques, including substrate preparation, spawn production, fruiting, and harvesting. The course will cover the life cycle of oyster mushrooms and the factors that affect their growth and development. Participants will learn about the different types of substrates that can be used for oyster mushroom cultivation, like paddy straw. They will also learn how to monitor growth conditions, and troubleshoot common problems.

Who can attend	Students interested in preparation of edible mushrooms
Batch size	40 Students maximum
Course duration	Total 30 Hrs
Course fees	Not applicable
Venue	Old VIVA College Biolab
Course Timing	9:00 am onwards (Theory) 9:00 am onwards (Practical, or when called for)
Resource Person	Rupali Deshmukh
Contact Person	Mr. Hensal Rodrigues (8898831586) Mr. Kiran Chakral (9004230925)

Course Content and Schedule:

Module	Duration	Topic
1	**2 hours**	**Introduction to Oyster Mushrooms** Overview, benefits and uses, types and nutritional value of oyster mushrooms
2	**4 hours**	**Oyster Mushroom Nutrition and Health (2 hours)** Nutritional value of oyster mushrooms Health benefits of consuming oyster mushrooms Scientific studies supporting oyster mushroom's medicinal properties
3	**6 hours**	**Substrate Preparation** Types of substrates, substrate preparation techniques, sterilization and pasteurization methods
4	**12 hours**	**Oyster Mushroom Cultivation** Growing substrate preparation, spawn preparation and selection, inoculation techniques, incubation and fruiting conditions, controlling environmental factors such as humidity, temperature, and light pest and disease control
5	**4 hours**	**Fruiting and Harvesting** Fruiting techniques, harvesting techniques, yield optimization
6	**2 hours**	**Troubleshooting and Quality Control** Common problems in oyster mushroom cultivation Quality control techniques Preventative measures

Evaluation: Students will have to prepare their respective oyster mushroom bags and monitor till the fruiting body appears. Culinary preparation of the fruiting bodies.

- **A certificate** will be given to the participants after successful completion of the course.
- **Feedback session** will be conducted during the certificate distribution program

Brief report

In the academic year 2022-23 Department of Botany and VIVA College Herbarium (VCH) introduced certificate courses for the students in addition to the curriculum. The course was successfully completed in the month of April. Duration of the course was 30 hours. Curriculum was set and delivered by the in-house faculty and an external resource person (Rupali Deshmukh). Mode of the delivery of the course was offline in the Old VIVA College laboratory. On the completion of the course, an evaluation test was conducted and a certificate was issued.

Report on Aquascaping and Freshwater Aquarium Management 2021-22

The 15-day Certificate Course in Aquascaping and Freshwater Aquarium Management, organized by the Zoology Department and the Internal Quality Assurance Cell (IQAC) of VIVA College, Virar, commenced on 10th January 2022. The course aimed to provide students with comprehensive knowledge and hands-on experience in the art of aquascaping and the management of freshwater aquariums. A total of 23 enthusiastic students enrolled in this course, eager to delve into the world of aquatic ecosystems.

The course was structured to cover a wide range of topics, including the principles of aquascaping, aquatic plant selection and care, water chemistry, filtration systems, fish species selection, and aquarium maintenance. The curriculum was designed to ensure a holistic understanding of the subject, combining theoretical knowledge with practical skills.

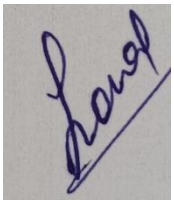

The teaching methodology employed during the course was a blend of lectures, practical demonstrations, and hands-on training. Experienced faculty members from the Zoology Department, provided valuable insights and guidance. The students were encouraged to actively participate in practical sessions, allowing them to apply their knowledge in real-world scenarios.

Highlights of the Course: Several highlights of the course made it a memorable and enriching experience for the participants:

- Aquarium Setup: Students learned the step-by-step process of setting up and designing stunning freshwater aquariums, considering factors like aesthetics, fish compatibility, and plant growth.
- Water Chemistry: The course provided an in-depth understanding of water parameters, including pH, temperature, and hardness, to maintain a healthy aquatic environment.
- Plant Care: Practical sessions on planting and maintaining aquatic flora enabled students to create beautiful aquascapes while promoting the well-being of the plants.
- Fish Management: Participants learned about different species of fish, their requirements, and how to create a balanced ecosystem within the aquarium.

- Maintenance Techniques: The course covered essential maintenance tasks, such as water changes, filtration system upkeep, and disease prevention, ensuring long-term success in aquarium management.

The 15-day Certificate Course in Aquascaping and Freshwater Aquarium Management conducted by the Zoology Department and IQAC of VIVA College, Virar, was a resounding success. The participants not only gained valuable knowledge but also developed practical skills that will enable them to create and manage freshwater aquariums effectively. The course fostered a deep appreciation for aquatic ecosystems and instilled a sense of responsibility towards their conservation.

Department of Biochemistry
Certificate Course on Chromatography Techniques
Year: 2021-22

September 2021

The Department of Biochemistry in association with IQAC proposes a short-term certificate course (Non-Credit) on Chromatography techniques (Course Code- SCTSTP01) (S= Science, CT=Chromatography techniques , STP= Short Term Program, 01- Assigned Number of the Course)

Course description:

The course provides a comprehensive overview of the chromatographic techniques. The course covers the basic principles of chromatography, its theory behind the separation, working and applications in varied fields. This programme is meant for students of Science covering the basics like Paper and Thin layer Chromatography to the sophisticated instrument like HPLC and HPTLC. The students will get knowledge of the application of this technique in one's life and also how these techniques cater to different applications which includes environment, food analysis, pharmaceuticals, cosmetics, ASU and Herbal Industries.

Batch 01 - 30th Aug - 3rd Sept 2021

Batch 02 - 9th Nov- 13th Nov 2021

Batch 03 -10th Jan-14th Jan 2022

Batch 04 - 28th Feb-4th Mar 2022

Who can attend	Students
Batch size	25 Students maximum
Course duration	Total 30 Hrs

Course Content and Schedule:

Module	Day	Duration	Topic
1	Day 1	4 hours	**Introduction to the Techniques** Overview, principle and theory of the techniques involved.
2	Day 1	2 hours	**Sample preparation for Paper and Thin Layer Chromatography**
3	Day 2	4 hours	**Experiment based on Paper chromatography and Thin Layer Chromatography**
4	Day 2	2 hours	**Observation, Discussion, Result interpretation**
5	Day 3	4 hours	**Sample preparation for HPLC and HPTLC**
6	Day 4	6 hours	**Working of the instrument HPLC** Students will be given an experiment where they will be using the machine and would get an handson experience.
7	Day 4	6 hours	**Working of the instrument HPTLC** Students will be given an experiment where they will be using the machine and would get an handson experience.
8	Day 5	2 hours	**Observation, Discussion, Result interpretation**

- **A certificate** will be given to the participants after successful completion of the course.
- **Feedback session** will be conducted during the certificate distribution program

The department of Biochemistry organized a certificate course for first, second and third year students of life science during the academic year 2021-22. The syllabus of the course was designed by the committee which was appointed by the department. This course was run by the permission of the principal of our college. Then the notice was given to the students and also they were told about the importance of the course. The course was offered for 100 students and it was free of cost. The timetable was made for the course which was held in batches. There were a total of 4 batches. The course was inaugurated in the presence of Dr. A.P Pandey sir. The major motto of this course was to cover the basic principles of chromatography, its theory behind the separation, working and applications in varied fields.

	This programme was meant for students of Science covering the basics like Paper and Thin layer Chromatography to the sophisticated instrument like HPLC and HPTLC. Students were provided with certificates after successfully completing the course and also their oral feedback was taken regarding the course.

VIVA COLLEGE HERBARIUM (VCH)
Skill Development Certificate Course on Understanding Herbarium (SHSTP01)
Year: 2022

January 2022

Objective:

- To inculcate basic Herbarium Handling Knowledge
- To train in curating a Herbarium
- To teach the usage of Herbarium and its resources

VIVA College Herbarium (VCH) in association with the Department of Botany proposes a short-term skill development certificate course (Non-Credit) on Understanding Herbarium which begins from **10th January.** Course Code-SHSTP01 (s= Science, H=Herbarium, STP= Short Term Program, 01- Assigned Number of the Course)

This short-term skill development certificate course aims to train the participants to obtain hands-on experience in a Herbarium

Who can Join: Students or anyone interested in Herbarium or plant-based studies and has basic knowledge about plants morphology

Batch size: **20 Participants Maximum**

Course duration: **Total 30 Hrs.**
01 Hrs. Introduction to course
14 Hrs. working hours for theory
21 Hrs. working hours for Practical

Course fees: NIL

Venue: Old VIVA College Seminar hall and/or Biolab. (or pre-decided location)

Course Timing: Will be decided in accordance with the participants and the resource person (tentative timing will be around 1pm)

Resource Person: Hensal Rodrigues & Kiran Chakral

Course Content and Tentative Schedule:

Theory Component: 12 working hours

Theory	Date	Day	Duration	Topic
TI	**11/01/2022**	**Tuesday**	**02 Hrs.**	**Inauguration** **Introduction**: Importance and Relevance of Herbarium
TII	**12/01/2022**	**Wednesday**	**02 Hrs.**	**Plant Material Collection Techniques**: Tips and Tricks
TIII	**18/01/2022**	**Tuesday**	**02 Hrs.**	**Nomenclature:** Type concept, Shenzhen code, APG IV
TIV	**19/01/2022**	**Wednesday**	**02 Hrs**	**Herbarium preparation:** Type of herbarium sheets, drying, pressing, and mounting techniques, wet preservation, dry preservation
TV	**25/01/2022**	**Tuesday**	**02 Hrs.**	**Herbarium caution and care**: precautions for herbarium preservation, poisoning techniques and chemicals, threats and benefits
TVI	**01/02/2022**	**Wednesday**	**02 Hrs.**	**Managing and Curating a Herbarium:** Classifying and arranging material, handling specimens
TVII	**02/02/2022**	**Tuesday**	**02 Hrs.**	**Plant Identification through Herbarium:** use of flora and original protologues to identify specimens

Practical Component (through Field Visit and Laboratory sessions): 10 working hours

Practical	Date	Day	Duration	Topic
P1	**08/02/2022**	**Tuesday**	**02 Hrs.**	**Field Collection:** Field visit to learn collection techniques, Drying and preservation
P2	**09/02/2022**	**Wednesday**	**02 Hrs**	**Herbarium preparation:** complete procedure of herbarium preparation including stitching, labelling, identification, barcoding (min. 40 specimens per person)
P3	**15/02/2022**	**Tuesday**	**02 Hrs**	**Preparation of Taxonomic Keys:** Taxonomic keys as an aid for Identification

P4	**16/02/2022**	**Wednesday**	**02 Hrs.**	**Taxonomic Database:** Using taxonomic Database for authentic plant identification, current trends in plant classification and names
P5	**22/02/2022**	**Tuesday**	**02Hrs.**	**Herbarium Curation:** Identify plants (min. 40 per person); How to resolve taxonomic complexities

Project / Assignment Component:

Based on the practical and theory, a **small project will be given to the participants** (in-group/individual) which should be conducted from **March to May.** The report of which should be submitted by the **First week of May**

Evaluation:

Attendance & active participation in Lectures & Practical's
A Project / an assignment
Presentation of the project and Assignment
Project Report from the participants (in group/individual)

(The Participants will be evaluated on the 1st week of May)

A certificate (with grade) will be given to the participants after successful completion of the course.
A feedback session will be conducted during the certificate distribution program

Brief report

VIVA College's Department of Botany successfully provided a certificate program in herbarium making, which improved participants' abilities to gather and preserve plant specimens. Under the direction of seasoned instructors, the program offered a comprehensive curriculum that included theoretical instruction, practical workshops, and field visits. With an emphasis on correct labeling and data recording, participants obtained useful insights into specimen preparation, documentation, and storage. The training stressed the value of herbaria in botanical research and teaching in addition to offering beneficial networking possibilities. With plans for more programs along these lines, the department's success with this one demonstrates its dedication to supporting hands-on learning and skill development in the subject of botany.

Learning Outcomes
Introduction to Python:
Overview, applications
Set up Python environment
Basic Syntax and Data Types:
Variables, strings, numbers
Control Flow and Functions:
Conditionals, loops
Functions, scope
Data Structures:
Lists, tuples, sets
Dictionaries
File Handling:
Read/write files
Exception handling
Object-oriented Programming (OOP):
Classes, objects
Inheritance, encapsulation
Libraries and Modules:
Standard libraries, external modules
Intro to popular libraries (NumPy, Pandas)

Unit	Topics	No. of Lectures
UNIT 1	Overview of Python and its applications Setting up Python environment (IDEs, Jupyter Notebooks) Basic Python syntax and data types (variables, strings, numbers) Conditional statements (if, elif, else) Looping structures (for, while)	10
UNIT 2	Functions and their usage Scope and lifetime of variables Lists, tuples, and sets Dictionaries and their operations	10

	Working with sequences and collections Reading and writing files in Python File modes and operations Handling exceptions and errors	
UNIT 3	Object Oriented Programming (OOP) Introduction to OOP concepts (classes and objects) Inheritance, encapsulation, and polymorphism Creating and using classes in Python Libraries and Modules Introduction to Python standard libraries Installing and using external libraries (pip) Exploring popular Python libraries (e.g., NumPy, Pandas)	10

Brief report

VIVA College's Department of Botany successfully provided a certificate program in herbarium making, which improved participants' abilities to gather and preserve plant specimens. Under the direction of seasoned instructors, the program offered a comprehensive curriculum that included theoretical instruction, practical workshops, and field visits. With an emphasis on correct labeling and data recording, participants obtained useful insights into specimen preparation, documentation, and storage. The training stressed the value of herbaria in botanical research and teaching in addition to offering beneficial networking possibilities. With plans for more programs along these lines, the department's success with this one demonstrates its dedication to supporting hands-on learning and skill development in the subject of botany.

Department of Biochemistry
Certificate Course on Spectroscopy Techniques
Year: 2019-20

September 2019

The Department of Biochemistry in association with IQAC proposes a short-term certificate course (Non-Credit) on Spectroscopy techniques (Course Code- SSTSTP01) (S= Science, ST= Spectroscopy techniques , STP= Short Term Program, 01- Assigned Number of the Course)

Course description:

The course provides a comprehensive overview of the spectroscopic techniques. The course covers the basic principles of spectroscopy, its theory, working and applications in varied fields. This programme is meant for students of Science covering the basics of spectroscopy. The students will get knowledge of the application of this technique in one's life and also how these techniques cater to different applications which includes environment, food analysis, pharmaceuticals, cosmetics, ASU and Herbal Industries.

Batch 01 - 3rd Sept - 7th Sept 2019

Batch 02 - 4th Nov - 8th Nov 2019

Batch 03 - 3rd Feb - 7th Feb 2019

Batch 04 - 2nd Mar - 6th Mar 2019

Who can attend	Students
Batch size	25 Students maximum
Course duration	Total 30 Hrs
Course fees	Not applicable
Venue	Old VIVA College Instrumentation lab
Course Timing	9:00 am onwards (Theory) 9:00 am onwards (Practical, or when called for)

Resource Person	Mr. Rohan D'Souza Mr. Nikhil Teli
Contact Person	Mr. Vinodkumar Didwana (9673236800) Ms. Tanvi Bore (9765878999)

Course Content and Schedule:

Module	Day	Duration	Topic
1	**Day 1**	**4 hours**	**Introduction to the Techniques** Overview, principle and theory of the techniques involved.
2	**Day 1**	**2 hours**	**Sample preparation**
3	**Day 2**	**4 hours**	**Experiment based on Spectroscopy**
4	**Day 2**	**2 hours**	**Observation, Discussion, Result interpretation**
5	**Day 3**	**4 hours**	**Sample preparation for UV-Vis and IR Spectroscopy**
6	**Day 4**	**6 hours**	**Working of the instrument UV-Vis Spectrophotometer** Students will be given an experiment where they will be using the machine and would get an handson experience.
7	**Day 4**	**6 hours**	**Working of the instrument IR Spectrophotometer** Students will be given an experiment where they will be using the machine and would get an handson experience.
8	**Day 5**	**2 hours**	**Observation, Discussion, Result interpretation**

- **A certificate** will be given to the participants after successful completion of the course.
- **Feedback session** will be conducted during the certificate distribution program

Activity Report 2019-2020

Department: Biochemistry

Activity Name: Certificate Course on Spectroscopy Techniques

Date of the activity:

- Batch 01 - 3rd Sept - 7th Sept 2019
- Batch 02 - 4th Nov - 8th Nov 2019
- Batch 03 - 3rd Feb - 7th Feb 2020
- Batch 04 - 2nd Mar - 6th Mar 2020

The department of Biochemistry organized a certificate course for first, second and third year students of life science during the academic year 2019-20. The syllabus of the course was designed by the committee which was appointed by the department. This course was run by the permission of the principal of our college. Then the notice was given to the students and also they were told about the importance of the course. The course was offered for 100 students and it was free of cost. The timetable was made for the course which was held in batches. There were a total of 4 batches with 25 students each.

The course was inaugurated in the presence of Dr. A.P Pandey sir. The major motto of this course was to cover the basic principles of spectroscopy, its theory, working and applications in varied fields.

This programme was meant for students of Science covering the basics of spectroscopy. Through this course the students will get knowledge of the applications of these techniques in one's life and also how these techniques cater to different applications which includes environment, food analysis, pharmaceuticals, cosmetics, ASU and Herbal Industries.

Students were provided with certificates after successfully completing the course and also their oral feedback was taken regarding the course.

Department of Biochemistry
Certificate Course on Chromatography Techniques
Year: 2018-2019

September 2018

The Department of Biochemistry in association with IQAC proposes a short-term certificate course (Non-Credit) on Chromatography techniques (Course Code- SCTSTP01) (S= Science, CT=Chromatography techniques , STP= Short Term Program, 01- Assigned Number of the Course)

Course description:

The course provides a comprehensive overview of the chromatographic techniques. The course covers the basic principles of chromatography, its theory behind the separation, working and applications in varied fields. This programme is meant for students of Science covering the basics like Paper and Thin layer Chromatography to the sophisticated instrument like HPLC and HPTLC. The students will get knowledge of the application of this technique in one's life and also how these techniques cater to different applications which includes environment, food analysis, pharmaceuticals, cosmetics, ASU and Herbal Industries.

Batch 01 - 3rd Sept - 8th Sept 2018

Batch 02 - 12th Nov - 17th Nov 2018

Batch 03 - 4th Feb - 9th Feb 2019

Batch 04 - 5th Mar - 11th Mar 2019

Who can attend	Students
Batch size	25 Students maximum
Course duration	Total 30 Hrs
Course fees	Not applicable
Venue	Old VIVA College Instrumentation lab
Course Timing	9:00 am onwards (Theory)

	9:00 am onwards (Practical, or when called for)
Resource Person	Mr. Vinodkumar Didwana Mr. Nikhil Teli
Contact Person	Ms. Tanvi Bore(9765878999)

Course Content and Schedule:

Module	Day	Duration	Topic
1	**Day 1**	**4 hours**	**Introduction to the Techniques** Overview, principle and theory of the techniques involved.
2	**Day 1**	**2 hours**	**Sample preparation for Paper and Thin Layer Chromatography**
3	**Day 2**	**4 hours**	**Experiment based on Paper chromatography and Thin Layer Chromatography**
4	**Day 2**	**2 hours**	**Observation, Discussion, Result interpretation**
5	**Day 3**	**4 hours**	**Sample preparation for HPLC and HPTLC**
6	**Day 4**	**6 hours**	**Working of the instrument HPLC** Students will be given an experiment where they will be using the machine and would get an handson experience.
7	**Day 4**	**6 hours**	**Working of the instrument HPTLC** Students will be given an experiment where they will be using the machine and would get an handson experience.
8	**Day 5**	**2 hours**	**Observation, Discussion, Result interpretation**

- **A certificate** will be given to the participants after successful completion of the course.
- **Feedback session** will be conducted during the certificate distribution program

Activity Report 2018-2019

Department: Biochemistry

Activity Name: Certificate Course on Chromatography Techniques

Date of the activity:

- Batch 01 - 3rd Sept - 7th Sept 2018
- Batch 02 - 12th Nov - 16th Nov 2018
- Batch 03 - 4th Feb - 8th Feb 2019
- Batch 04 - 5th Mar - 9th Mar 2019

The department of Biochemistry organized a certificate course for first, second and third year students of life science during the academic year 2018-19. The syllabus of the course was designed by the committee which was appointed by the department. This course was run by the permission of the principal of our college. Then the notice was given to the students and also they were told about the importance of the course. The course was offered for 100 students and it was free of cost. The timetable was made for the course which was held in batches. There were a total of 4 batches with 25 students each.

The course was inaugurated in the presence of Dr. A.P Pandey sir. The major motto of this course was to cover the basic principles of chromatography, its theory behind the separation, working and applications in varied fields.

This programme was meant for students of Science covering the basics like Paper and Thin layer Chromatography to the sophisticated instrument like HPLC and HPTLC.

Students were provided with certificates after successfully completing the course and also their oral feedback was taken regarding the course.

Brief report

The Department of Botany at VIVA College conducted a successful certificate course on Herbarium Making, designed to enhance participants' skills in plant specimen collection and preservation. The program, led by experienced faculty members, featured a well-rounded curriculum encompassing theoretical knowledge, hands-on workshops, and field trips. Participants gained practical insights into specimen preparation, documentation, and storage, with a focus on proper labeling and data recording. The course not only provided valuable networking opportunities but also emphasized the importance of herbaria in botanical research and education. The success of this initiative reflects the department's commitment to fostering practical learning and skill development in the field of botany, with plans for future similar programs.
