			Many students demonstrated a keen interest in pursuing Microsoft certification courses.	
			Mr. Rahul provides guidance to these students regarding the certification course.	

	Miss Ratna assists in resolving doubts that the students had regarding course fees, time duration, and other related matters.
	Finally, Dr. Sampada Deshmukh encourage the students to participate in the certification course as it offers better opportunities for career advancement.
Brief report of programme (in 250 -300 words)	Title of Seminar: “Certification Courses by Microsoft” Objective: “To assist students in developing skills and help students in obtaining Microsoft Certifications.” Details: The seminar was organized for the students B.Sc IT, B.Sc CS and B.Sc DS on 1st February, 2023. The talk was given by Ms.Ratna and Rahul a team of skilled knowledge workers whose mission was to assist students in developing skills and help students in obtaining Microsoft Certifications. The speaker gave an introduction and started presentation with the definition of skill development and its importance in today’s world. He showed a picture of Satya Nadella, the CEO of microsoft and used him as an example that one does not need to be good in

programming to land a job in a Tech Giant company as he was merely an electrical engineer by degree. There the importance of skill came up. Then he showed another photo of a 14 year old boy, Tanmay Bakshi who at this age was hired by IBM as an AI Engineer and rejected an offer from Google before that. There too the importance of skill was shown as he started from an early age and worked his way towards success. Next students were shown some statistics of how many employees in India are actually skilled in their profession compared to people who just want to earn money and quite surprisingly the percentage of skilled people was very low. The demand does not meet the supply of skilled people. He explained the importance of python programming language in the tech world. It is used in every branch of computer science like: Web Development, App Development, Machine learning etc. The speaker gave many examples. Then he informed about Microsoft Student Partners (MSP). It is basically a platform to test knowledge on various technical skills. The pass percentage of the exam is 70%. If the students pass the test, it sets them apart from the crowd and they acquire a lifelong tag from Microsoft. He continued about the Microsoft Certification Programme and it's benefits. Then he told us about various workshops on different skills like ethical hacking, python etc. To conclude the seminar he demonstrated what ethical hacking is by actually hacking a students' mobile who volunteered for it . Everyone was amused by that. Overall the talk was very informative and got many of the students interested in the programme.

Brief report of programme (in 250 -300 words)	Title of Seminar: “Certification Courses by Microsoft” Objective: “To assist students in developing skills and help students in obtaining Microsoft Certifications.” Details: The seminar was organized for the students B.Sc IT, B.Sc CS and B.Sc DS on 1st February, 2023. The talk was given by Ms.Ratna and Rahul a team of skilled knowledge workers whose mission was to assist students in developing skills and help students in obtaining Microsoft Certifications. The speaker gave an introduction and started presentation with the definition of skill development and its importance in today’s world. He showed a picture of Satya Nadella, the CEO of microsoft and used him as an example that one does not need to be good in programming to land a job in a Tech Giant company as he was merely an electrical engineer by degree. There the importance of skill came up. Then he showed another photo of a 14 year old boy, Tanmay Bakshi who at this age was hired by IBM as an AI Engineer and rejected an offer from Google before that. There too the importance of skill was shown as he started from an early age and worked his way towards success. Next students were shown some statistics of how many employees in India are actually skilled in their profession compared to people who just want to earn money and quite surprisingly the percentage
--	--

	of skilled people was very low. The demand does not meet the supply of skilled people. He explained the importance of python programming language in the tech world. It is used in every branch of computer science like: Web Development, App Development, Machine learning etc. The speaker gave many examples. Then he informed about Microsoft Student Partners (MSP). It is basically a platform to test knowledge on various technical skills. The pass percentage of the exam is 70%. If the students pass the test, it sets them apart from the crowd and they acquire a lifelong tag from Microsoft. He continued about the Microsoft Certification Programme and it's benefits. Then he told us about various workshops on different skills like ethical hacking, python etc. To conclude the seminar he demonstrated what ethical hacking is by actually hacking a students' mobile who volunteered for it . Everyone was amused by that. Overall the talk was very informative and got many of the students interested in the programme.

Brief report of programme (in 250 -300 words)		The college is the place where you keep learning and keep experiencing. Our VIVA college always motivates us to explore. Likewise we got a chance to interact with Mr. Pramod sir. His journey is something which blew us away. He is currently the CEO of yukti consultancy, the media agency which he founded Years ago. This media house has		

	worked with big brands and handled their public relation. Brands like – Panasonic India, canon India, Tata motors etc. But that's not how it started; he did his masters in communication and journalism and masters in leadership and science from Mumbai University. Before he started his media house, he has worked as a reporter in print media like Dainik Prahaar and Marol Kesari. He explained us different aspects of public relation and the importance of building a brand. He explained us by sharing a few case studies of things like- Maggi, jawed Habib McDonald/ burger king and many more. He even shared his personal experiences in the industry and guided us for our future jobs in the practical world. We learnt a lot how to handle a client and deliver what exactly they want.

“Leopard in a Spot” – A Seminar

6 September, 2018: Nikit Surve of the Dehradun-based Wildlife Institute of India, who has concluded the first comprehensive study of leopards and their prey in Mumbai, conducted a seminar on Role of Media in wildlife reportage in Viva College for the students of BMM. In order to eliminate the misconceptions produced in the minds of the common people regarding leopards, Nikit Surve further scattered his study into the field of Media.

He prefaced the seminar explaining the link between leopard protection and media. According to him, from his survey and personal experience, Media plays a huge role in portraying the image of an event into the minds of the people.

Through the presentation, he previewed several situations wherein News outlets wrongly termed the actual news for sensationalism. Therefore, he ventured into educating the soon-to-be reporters of our country to understand the reality of the situation.

Nikit Surve shared his encounters with Leopards, with Media personnel's, with activists and common people that helped him to complete his study. His study suggest that the SGNP leopards are dependent on both wild as well as domestic prey. Here, the leopards share urban space with human beings and they do so as long as their prey population, both domestic and wild, remain healthy, and their habitat protected. No attacks on humans were reported during the study period, which spanned over four months, despite leopard visitations in the surrounding areas.

The sole of him conducting these seminar is to inculcate the actuality of the innocence of Leopards to the people that can be made possible through the upcoming reporters or journalists. He concluded his seminar on this note and bid farewell to the attentive and highly amused crowd of students

‘Leopard in a spot’ - Seminar

Subsequent to the seminar conducted by Nikit Surve on the role of media in wildlife reportage, a follow up seminar was organized at St. Xavier’s Autonomous in association with Wildlife Conservation Society, ONGC, Mumbai Press Club and Maharashtra Van Vibhaag.
